PROFESSIONAL SUMMARY

Computer Science graduate with hands-on Front-End Development experience through a 120-hour internship and 120-hour field training. Skilled in HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React.js, and TypeScript. Experienced in building responsive, user-friendly web applications, integrating REST APIs, implementing localization and RTL/LTR interfaces, and creating maintainable UI components.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), TypeScript, React.js, Responsive Web Design
- **APIs & Web:** REST APIs, Open-Meteo API, Leaflet.js
- **Programming:** Java, Python, C++
- **Database:** SQL, Oracle Database
- **Tools & Platforms:** Git, GitHub, Visual Studio Code

PROFESSIONAL EXPERIENCE

Front-End Developer Intern | Tech Code Gaza, Palestine | 120 Hours

- Developed responsive web pages and reusable UI components using modern front-end technologies.
- Implemented responsive layouts optimized for desktop, tablet, and mobile devices.
- Applied Git and GitHub for version control and collaborative code management.
- Collaborated with the development team on front-end development tasks and UI improvements.

Front-End Developer Trainee | Code Tech — Field Training 120 Hours

- Completed 120 hours of supervised field training through Al-Azhar University's Faculty of Engineering and Information Technology.
- Practiced front-end development using HTML, CSS, responsive design, and React.js.
- Worked on building and improving web page layouts and user interfaces.

KEY PROJECTS

1. Glass Weather Dashboard

Tech Stack: HTML5 | Tailwind CSS v4 | JavaScript | Open-Meteo API | Leaflet.js
Live Demo: https://sajaraed.github.io/glass-weather-dashboard/ | **GitHub:** https://github.com/sajaraed/glass-weather-dashboard

- Developed a responsive weather dashboard with a modern Glassmorphism interface and dark/light themes.
- Integrated Open-Meteo API for real-time weather data and Leaflet.js for interactive map visualization.
- Added Arabic/English localization, automatic RTL/LTR switching, and timezone detection.

2. Coffee & Desserts Store App

Tech Stack: React.js | Tailwind CSS | JavaScript | LocalStorage
Live Demo: https://sajaraed.github.io/coffee-app/ | **GitHub:** https://github.com/sajaraed/coffee-app

- Built a responsive e-commerce application for desktop, tablet, and mobile devices.
- Implemented a shopping cart, checkout functionality, real-time totals, and quantity management.
- Added product search, filtering, ingredient/allergen information, and delivery scheduling.

- Implemented Arabic/English localization with RTL/LTR support and LocalStorage persistence.

3. BS Luxury Hotel Website

Tech Stack: React.js | TypeScript | Tailwind CSS | AOS Library
Live Demo: https://sajaraed.github.io/hotel-bs/ | **GitHub:** https://github.com/sajaraed/hotel-bs

- Rebuilt the luxury hotel website using React.js and TypeScript.
- Implemented mobile navigation, smooth scrolling, and scroll-based animations.
- Optimized layouts for desktop, tablet, and mobile devices.

4. Interactive Notes App

Tech Stack: HTML5 | CSS3 | JavaScript (ES6+) | LocalStorage
Live Demo: https://sajaraed.github.io/notes-app/ | **GitHub:** https://github.com/sajaraed/notes-app

- Developed a lightweight notes and task management application using Vanilla JavaScript.
- Implemented Masonry Grid layout, filtering, and persistent LocalStorage data.
- Added Arabic/English localization and light/dark theme switching.

EDUCATION

Bachelor of Computer Science
Al-Azhar University – Gaza, Palestine | GPA: 85.77/100 (Very Good)

CERTIFICATIONS & TRAINING

- **Frontend Web Development — 120 Hours:** Code Tech in cooperation with Engineers Syndicate Training Center – Gaza (Nov 2025 – Jan 2026)
- **Field Training — 120 Hours:** Code Tech | Al-Azhar University, Faculty of Engineering and Information Technology

LANGUAGES & SOFT SKILLS

- **Languages:** Arabic (Native), English (Intermediate)
- **Soft Skills:** Problem Solving, Teamwork, Communication, Time Management, Attention to Detail, Fast Learner
